

7 laundry rules

Before putting your clothes in the laundry, please check this list:

1. Make sure there's nothing left in any of the pockets
2. Unroll all sleeves and cuffs
3. Close zippers and hooks/fasteners
4. Unbutton blouses/shirts
5. Turn T-shirts with designs/printing inside out
6. Separate everything: No socks rolled together or a T-shirt inside a sweatshirt
7. If you have spilled on something, pre-treat it before putting it in the laundry.

Note: If something is very dirty, wet or smelly, DO NOT put it in the laundry pile! Alert the Laundry Master and ask what to do.
